The principal object of the caucus was to take action on the question of Chinese immigration. Wigginton offered two resolutions, the first declaring that Chinese immigration should be restricted and in favor of a modification of the Burlingame treaty, and the second urging the passage of the bill reported from the committee on education and labor by Willis, of Kentucky, which prohibits the landing in the United States more than fifteen Mongolians by any one vessel. The resolutions were adopted without division.

A plan has been agreed upon for settling the relations of the government with these Indians, but its details are not yet made known.

Following are the principal items: For the compensation of postmasters for the fiscal year which ended June 30, 1878, $241,921, to be paid out of the postal revenues of that year; for printing and binding for the fiscal year ending June 29th, $4,000, to pay the balance due for the transportation of mails by railroad during the fiscal year ending June, 1879, and the previous year, $519,799. The postmaster-general accompanies the request with an explanation saying that in his last annual report attention was called to the insufficiency of appropriations for the compensation of postmasters, and for the transportation of mails by railroads to enable him to get the positive requirements of the law in regard to them.

A Measure to Create an Effective Militia.

The bill proposes to appropriate ammunition and other ordinary and quartermaster stores for the active militia.

THE ELECTION INVESTIGATION.

CHARLESTON, Jan. 28.—The Teller committee was occupied mainly to-day in hearing Democratic testimony as to the conduct of the canvass in Williamsburg and Sumpter counties.

State Senator Maurice testified to the lukewarmness and divisions of the Republicans in Williamsburg, and to the general bad character of Swails, the Republican leader.

Andrew Johnson, a colored Democrat, had been threatened, abused and beaten by colored Republicans on account of his politics, and his children beaten and driven from school.

James Minus (colored) had been cursed at because he was a Democrat. He had been shot in the face and his head was broken.

A dispatch dated Matoord, Jan. 26, says that Gen. Roberts, previous to his temporarily quitting Khost, assembled the chiefs and warned them that the British would be always near and would return instantly to quell any disturbance. It would be idle for them to entertain any hope of Russian aid, as Russia was impoverished in men and money.

A private telegram states that the Portuguese lost 300 men, including 50 Europeans and two officers. THE CIPHER INVESTIGATION.

WASHINGTON, Jan. 28.—Before the Potter committee to-day Assistant Postmaster General Brady said that he suspected the contents of the package given him for safe keeping by Bullock, had copies made and gave a portion of the originals to William E. Chandler and another part anonymously to Whitelaw Reid. The remainder were given to Chandler and Hiscock. The telegrams of both parties were in bundles, and both sides of the question were revised by them. The Democratic telegrams, however, were more interesting to them. Chandler was given the Florida dispatches. Witness, Chandler and Col. Parker, chief of the postoffice special agents, endeavored to translate the messages, but utterly failed. Witness took from the telegrams in the senate committee room those which passed between Tyner and himself. He would produce all received and sent by him if they can be found. There was nothing in them that he would fear the world seeing.

The Potter committee on cipher dispatches yesterday did not bring out anything very important except a couple of telegrams that passed between Zach Chandler and James A. Tyner, assistant postmaster general, referring to the appointment of a couple of "Indian agents," who were to contribute toward saving the state of Indiana to Hayes. Tyner explained to the committee that the term "Indian agent" was a cipher for "$5,000," and that a couple of Indian agents meant $10,000, which Chandler was to furnish for campaign purposes.

Wm. E. Chandler testified that he left the major part of the telegrams given him by General Brady in the private office of General Butler. Another package he took to the Washington office of the New York *Tribune*.

The Earth's "Bulge"

[From the New York Times.]

The congress of the United States is to be asked to appropriate a large sum of money to prosecute a geodetic survey of the earth's surface. This survey, it is expected, will discover the bulge, if there be a bulge, and ascertain the extent of the wabble, if there be a wabble, and thus forever satisfy the curiosity of mankind. The expedition is to be purely scientific, and no reporters will be permitted to accompany it. The survey will occupy twenty-five or thirty years, and the infant children of those who read the *Times* to-day will, unless Congressman Glover objects, eventually learn whether the earth is a perfect oblate spheroid, or merely an ellipsoid of three axes.

Much Smoke—Some Fire.

[From the Philadelphia Record, Dem.]

Where there is a great smoke there is some fire. The reiterated charges against Senator Grover in Oregon, like the charges against Representative Acklen in Louisiana, cannot be puffed away by denials in the senate or the house. Both these gentlemen should get clean bills of health from their constituencies.

Dr. Abel, the Berlin correspondent of the London *Times*, is a remarkable scholar, reading and translating at sight upwards of seventy different languages. Though by birth a German, his English writing, especially in his letters to the *Times*, is almost perfect in style and diction. During the Berlin congress Lord Beaconsfield was personally introduced to the scholar, to whom he said: "Dr. Abel, you are the author whom I have most studied."

Mr. Gladstone is about personally to contest the borough of Edinburgh. This programme frightens the souls of the fearful tories. They are appalled at the temerity which is discovered in his invasion of Scotland and defiance to electoral combat of the eldest son of "the bold Buccleugh." "The event," exclaims one tory paper, "is enough to make the last minstrel turn in his grave and compose a still later lay."

CONGRESSIONAL.

Senate.

WASHINGTON, Jan 28.

The testimony of James E. Anderson, taken before a committee of the house and affecting Senator Matthews, was received from the house and referred to a select committee appointed last session, Allison, chairman.

A number of bills were introduced and referred.

By Edmunds—Authorizing the president to prescribe suitable police regulations for the government of various Indian reservations and for the punishment of murder, robbery and other crimes committed therein; referred.

Davis, of Illinois, presented a memorial asking congress to provide an industrial bureau, whose duty it shall be to obtain and collate accurate statistics of all countries and the interests which may employ labor.

A motion of Morrill, to lay aside the calendar and consider the bill to provide for taking the next census, was rejected by a vote of—yeas, 25, nays, 27.

House amendment to senate bill making the 22d of February a legal holiday in the District of Columbia was agreed to and the bill passed. The amendment provides that it shall take effect February 22, 1879.

Dawes from the committee on public buildings and grounds reported adversely on the memorial of the Missouri legislature asking the removal of the national capitol to a more central portion of the Union.

Plumb from the committee on military affairs reported favorably on the bill to authorize the secretary of the treasury to ascertain and report to congress the amount of money expended and the indebtedness assumed by the state of Kansas in repelling invasions and suppressing Indian hostilities, placed on the calendar.

House.

The legislative appropriation bill was reported and referred to a committee of the whole.

The bill to restrict the immigration of Chinese was then taken up. The bill passed—yeas, 155, nays, 72.

The house then went into committee of the whole on the postoffice appropriation bill.

The bill as passed makes it a misdemeanor, punishable with fine and imprisonment, for the master of any vessel to take on board at any Chinese or other foreign port more than fifteen Chinese passengers, whether male or female, with intent to bring them to the United States, the act to take effect from and after the 1st of July, 1879.

Time for discussion of the Chinese immigration bill was limited by arrangement of the Democratic caucus to one hour, and Willis gave one half of his hour to Townsend, of New York, the only Republican known to be willing to speak against the bill. The purpose of these tactics was to obtain for the Democrats the largest possible apparent credit for the bill's passage.

Townsend declined to share his time with any Republican except Page, and yielded only five minutes to him, during which Page argued mainly to show that the bill did not in fact controvert the Burlingame treaty, as the latter provides in its fifth section for restriction of immigration on either side for certain specified purposes, and that the Chinese immigration against which the bill legislates is not immigration in the true sense.

Townsend made an earnest but somewhat rambling speech, arguing that cheap labor is desirable, that Chinese are valuable to the country and that the crusade against them simply is a repetition of the efforts made a few years ago to exclude or discourage the immigration of Irish and Germans. He also claimed that it is an outgrowth of the same spirit which in past ages incited the persecution of the Jews in Europe. His speech throughout was based on the "brotherhood of man" sentiment, and he indulged in many sarcastic references to the story of "Bill Nye and the Heathen Chinee."

Luttrell made a five-minutes speech devoted mainly to an attempt to show that the Republican party had obstructed legislation on this subject by refusing to adopt the amendment offered by him to an appropriation bill, to prohibit the employment of Chinese in the navy yards. He did not state that this was ruled out because it was new legislation and inadmissible under the rules of the house.

Williams, of Oregon, before Luttrell spoke, had to-day endeavored to offer a similar amendment to this bill, but the Democrats objected to its reception.

Willis made a calm, forcible speech, recapitulating the arguments of his report, and laying special stress upon the unanimity of the Pacific coast sentiment on this subject, and upon the fact that all other countries where Chinese had emigrated had been forced by similar experiences to adopt restrictive measures.

Amendments were offered by Conger exempting Chinese students from restrictions of the bill, and by Garfield providing that formal diplomatic notice should be given the Chinese government of the termination of the treaty before the bill goes into effect, but all amendments were excluded by demand for the previous question, and the bill passed on the yea and nay vote as above stated.

After taking up the postoffice bill, Baker of Indiana moved to increase the appropriation for mail transportation by railroad from $8,715,000 to $9,000,000. After short debate it was adopted: yeas 89, nays 26.

Chalmers submitted an amendment increasing the appropriation for transportation on steamboats from $750,000 to $900,000; agreed to.

Without final action the committee rose.

Durham introduced a joint resolution calling on the secretary of state for a detailed statement of expenditures made by the government at the Paris expedition; passed.

Aldrich asked leave to offer a resolution directing the committee on buildings and grounds to inquire into the method of constructing public buildings with a view of finding whether any abuses are connected with the same; objected to.

Hewitt, of Alabama, from the committee on public lands, reported a bill creating an additional land district in Idaho; passed.

Scales asked leave to offer a resolution directing the committee on Indian affairs to investigate the recent escape of Cheyenne Indians from their reservation, and their subsequent slaughter by U. S. forces.

McCook objected.

The session to night on the levee bill was abandoned and postponed until this day week and the house adjourned.

DECISION IN THE U. S. CIRCUIT COURT. DEADY, J.

U. S. Circuit Court—District of Oregon

MONDAY, January 7, 1879.

Daniel Mayer v. E. Cahalin—No. 471, action to recover money.

(1.) TITLE OF AN ACT.—The subject of an act is expressed in the title thereof, although the provisions in the act concerning the subject may be different from what may be inferred from or suggested by such title.

(2.) ATTACHMENTS.—A provision in an act concerning the dissolution of attachments is a matter properly connected with the "subject" of disposing of an insolvent debtor's property.

(3.) TITLE AND BODY OF ACT.—Where the title of an act states that it is to provide a *just* disposition of an insolvent debtor's property, it cannot be maintained that the "subject" of the act is not expressed in the title because the disposition of such property provided for in the body of the act, is in the opinion of the court not *just*.

(4.) REPEAL BY IMPLICATION.—A repeal by implication is as much within the purview of § 22 of Art. IV. of the constitution of Oregon, and the mischief intended to be prevented by it, as an amendment in terms; but it appearing that the supreme court of the state has decided otherwise, this court follows such decision.

DEADY, J.

This action is brought by the plaintiff, a citizen of California against the defendant to recover the sum of $7,967 93, the balance due upon certain goods, wares and merchandise theretofore sold and delivered to him.

On December 23, 1878, the plaintiff sued out an attachment upon which the marshal took the defendant's stock in trade into his possession.

The defendant now moves to dissolve the attachment upon the ground that on December 30, 1878 he made an assignment of all his property, of the value of $12,979 55, to an assignee for the benefit of all his creditors, in proportion to the amount of their several claims, amounting in the aggregate to $21,338 52, in accordance with the provisions of the act entitled "An act to secure creditors a *just* division of the estates of debtors who convey to assignees for the benefit of creditors," approved October 18, 1878; and, that on January 7 1879, the assignee aforesaid demanded of the marshal the property taken on said attachment, which he refused to surrender.

This act (Ses. Laws 1878, p. 36), provides that no general assignment for the benefit of creditors shall be valid unless made for the benefit of *all* the creditors *pro rata*; and, that "*such* assignment shall have the effect to discharge any and all attachments, on which judgment shall not have not have been taken at the date of such assignment." It may be remarked, in passing, that *judgments* are not taken on *attachments* but are *given in actions* wherein attachments may be or have been issued.

By § 933 of the R. S. an attachment of property in the national courts to satisfy any judgment that may be recovered therein, "shall be dissolved when any contingency occurs by which, according to the laws of the state where said court is held, such attachment would be dissolved upon like process in the courts of the state."

Upon this section counsel for the plaintiff admits that if the act of October 18, 1878, aforesaid, is valid, this motion must prevail, but maintains that this act is unconstitutional and void because: (1), It was passed in contravention of § 20 of Article IV. of the constitution—*the subject thereof not being expressed in the title*: and (2), It was passed in contravention of § 22 of said article—certain sections of the code on the subject of attachments being thereby *amended without being set forth and published at full length*.

The first objection is sought to be maintained by showing that while the "subject" expressed in the title of the act is the *just* division of a debtor's property among his creditors—in effect, the body of the act provides for or permits a very *unjust* distribution of said property. For instance, while it provides that an assignment shall dissolve an attachment, it leaves judgments by confession which may have been made in the mean time or at any time for the very purpose of preventing a *just* distribution of the property in full force. Upon these judgments executions may issue and be levied upon all the property of the debtor and leave nothing for the assignment to operate on—its only effect in such case being, to dissolve the attachment for the benefit of the creditors who have, with the assistance of the debtor, obtained judgments by confession. Besides, it provides that the assignment shall not pass any property not mentioned in the inventory, thus leaving such property liable to be taken on attachment by any creditor *after* the assignment. The effect of this is practically to invite and legalize a partial and fraudulent compliance with the act itself.

Evidently the object of the act was to prohibit insolvent debtors from preferring one creditor to another, and so far it is not obnoxious to the charge that its subject is not expressed in its title. But it must be admitted that in practice it will not accomplish such purpose, and that most probably it will operate as counsel contend—to secure an *unequal* and therefore an *unjust* distribution of a debtor's property.

But I do not think that a court can say that the "subject" of an act is not expressed in its title because it may appear that, owing to unintentional errors and imperfections in its composition, its practical operation may be somewhat or altogether different from what was expressed or intended. What constitutes a *just* distribution of a debtor's property is a subject about which a variety of opinions may be entertained and as to which there is no absolute or fixed standard to which we may refer as authority.

The "subject" of this act is the *distribution of an insolvent debtor's property among his creditors, in a certain contingency*, and beyond a doubt so much is expressed in the title. It also purports that such distribution is *just*—that is according to the understanding of the legislative assembly, which I do not think is subject to judicial review.

It is also urged against the act under this head that the "subject" of attachments is not expressed in the title, though embraced in the body of the act, and therefore it is so far void. But I think the dissolution of attachments is certainly a "matter properly connected" with the "subject" of the distribution of an insolvent debtor's property—particularly in a country where such property may be liable to attachment at the suit of a creditor—and therefore not be otherwise expressed in the title.

As to the second objection: § 22 aforesaid provides that "No act shall ever be revised or amended by mere reference to its title, but the act revised or section amended shall be set forth and published at full length." In answer to this objection counsel for the defendant insist: (1), that the act in question does not amend any existing act; and, (2) that if it does, it is only by implication, and such an amendment is not within the purview of this provision of the constitution as construed by the supreme court of the state; citing, Fleishner v. Chadwick, 5 Or 153; Grant Co. v. Sells, Id 243; Hurst v. Hawn, Id 279.

I think the act does amend the code as to the effect and discharge of attachments. It is not merely cumulative as was the case, in The State v. Berry, 12 Iowa, 59 cited by counsel for defendant. It changes, limits and restrains the operation of § 142 of the Code so that the property taken on an attachment is no longer held as an absolute "security for the satisfaction of such judgment" as the plaintiff may obtain, but only upon condition the defendant in the meantime does not make an assignment, which he is almost certain to do, unless he is in collusion or friendly co-operation with the attaching creditor. The same is true of § 159. In effect this section by a reference to §§ 178-9 provides that an attachment shall not be discharged or dissolved unless it satisfactorily appears that there was not sufficient cause for its allowance—that it was issued wrongfully. But this act provides that it shall be discharged if the debtor makes an assignment before judgment.

In short the provisions of the Code in relation to the effect of an attachment upon property taken thereon and the judgment and the dissolution thereof prior to judgment and the provisions of the act cannot co exist. The application of one to the subject necessarily excludes the other. They are plainly repugnant to one another. The provisions of the Code are by this act rendered null and of no effect whenever the defendant wills it to be so.

Upon the question of whether the act was passed contrary to section 20 aforesaid, counsel for the plaintiff insist that the decisions of the supreme court of the state cited from (5 Or, *supra*) are not in point, that they only decide that a statute may be *repealed* by implication, but not that it may be so *amended*. But in Grant Co. v. Sells, which is the case most relied on, while the court speaks of a *repeal* by implication, and not an *amendment*, the facts of the case, by the light of which the language of the court is always to be read, show that it was a case of an amendment of a section and not the repeal of a statute.

In Portland v. Stock, 2 Or 70, and Doland v Bernard (5 Or, 391) the court held the amending act void. But in each of these cases the act purported to be an amendatory one. Yet in Portland v. Stock no weight is attached to that fact, and the supposed difference between repeals in terms and by implication is not even noticed. Neither is any significance attached to the fact in Dolan v. Barnard, where the act under consideration is said to be "not only amendatory in terms," but so "in its nature and effect."

For myself, I have a decided conviction upon the question: I agree heartily with the able dissenting opinion of Ch. J. Bonham in Grant Co. v. Sells, and especially when he says—"It is, in my judgment wholly immaterial whether the act is *eo nomine* amendatory or not; the evil against which the constitutional provision was directed, is amendments which are such in *effect*, and is not limited to those which are so *named* in the title or preamble of the act."

It is said that the constitution is silent upon the subject of *implied* repeals. But it is no more silent upon that subject than upon repeals in terms. The fact is, it speaks specifically of neither but uses the term "amend" without qualification or limitation, and thereby includes both modes of amendment or repeal, and one just as much as the other. As I read it, the constitution does not contemplate any such immaterial distinction as amendments in terms and by implication. In effect it says that *an* amendment of a statute shall be valid unless the section amended is set forth and published at length. The evil intended to be prevented by this section of the constitution is a very serious one, and unless amendments by implication, which are more mischievous than those in terms, are held to be within its purview, the provision is practically nullified. The average legislator will never take the risk or trouble of amending a statute by name when he can avoid both by doing it by implication—without professing to do so.

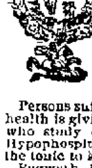

But while I have felt at liberty to throw out these suggestions on the subject, my duty is to follow the ruling of the supreme court of the state upon a question involving the construction of the constitution of the state. And while there may be some ground for the argument that as the last case on this subject decided by the supreme court—Dolan v. Barnard, *supra*—ignores the distinction between repeals in terms and by implication, yet I think that that being a case in which the act purported to be amendatory, I am not at liberty to assume that the case of Grant county v. Sells, *supra*, is thereby overruled, and must therefore hold upon the authority of that decision that this act is valid.

This being so, the attachment is dissolved; and it is so ordered.

One leak on nearly every farm may be found in the neglect of the agricultural implements. In traveling over the country it is no unusual sight to see plows, harrows, wagons, sleds, reapers and mowers, etc., piled in the fence corners, in the fields, lanes, barn yards and public highways. Whenever you see things around in this way you can set it down that there is at least one leak on that farm.

PEOPLE AND GOVERNMENT.

Careful observers do not fail to note in American communities the manifest tendency to rely more and more on "the government" for direction and help in all the affairs of life. By large numbers government is expected to do pretty much everything. When anything is thought of that would be desirable, an act of the legislature is the very first thing suggested. Large classes refuse to look for resources in their own energies, where resources alone can be found. We have just fallen upon a discourse recently delivered by ex Gov. Seymour in New York, which contains many pregnant sentences devoted to a remonstrance against the increasing misconception of the functions of government involved in this idea that somehow or other the state is to work out the problem of life for every individual and take care of his well-being. The remarks made by Gov Seymour on this subject were embodied in a discourse on the depression of the times, and incidentally on the disposition of large classes to turn to the government for relief. He said "The social, political and business evils which affect our country are not to be cured by political strategy, nor by tricks of statesmanship. No country can be legislated out of distress, crime or poverty." These are words of soberness and wisdom to be set in contrast with the vain babblings of partisans who never fail to assert that the ascendency of their political party is the only thing necessary to cure all the evils of the time. Again: "No laws in civilized countries are potent for good which do not emanate from the sentiments, habits and virtues of the people. They demand personal, fireside and local reforms. They cannot be made by others for us. They must be wrought by each man in the use of his special intelligence and personal powers, in office and out of it, in all forms of work." This is the kind of precept the country needs. It may be called commonplace, and yet no time ever demanded it more. All first truths are of the commonplace and familiar sort. New discoveries, so-called, of a paradoxical and misleading sort, may lay claim to brilliancy, and for a time they may be as current as copper counters,—and about as valuable. But time approves few things, and after every effort to seek out new inventions in this department of experience we are thrown back on those principles which were among the first discoveries of mankind. Trite as they are they never will be superseded. A century ago, when revolutionary madness was shaking most of the civilized world, Burke told the apostles of innovation in his words of tremendous energy that they had no new discovery to announce in relation to the powers and duties of government in taking care of a people for whose convenience it existed; and those to whom these words were addressed passed through a stormy and bloody period of twenty-five years to find his words true at last. Men like Gov. Seymour, who speak doctrines like these, rise above demagogy and do their country a service which is constantly needed to counteract visionary notions that injuriously affect individuals by leading them away from self-reliance and self-helpfulness. Just now there is great demand for restriction of Chinese immigration, and congress is passing a law on that subject. The argument for it contains many good reasons; and yet those who are most loudly demanding it will be disappointed in its results, since as a rule they will find the measure will bring them little improvement of opportunity. It will be necessarily so, because every man's remedies and fortunes lie mainly within himself; and this must always be true. No act of society or of government can ever make it otherwise.

THE EXTREME PENALTY.

Every remedy has been exhausted in favor of Brown and Johnson, now under sentence for murder, and the decree of the court that they be hanged on the 7th February must be enforced. As this awful retribution approaches its consummation there is some change in the tone of public feeling, but no relenting, nor anything like a deprecation of the sentence of the law, or a wish to avert it. The feeling is not one of vindictiveness toward those whose crime has brought upon them this most dreadful penalty of the law. It is a feeling, first, that justice demands the execution of the sentence, and next, that the safety of society requires it. There is no heat or passion about it; beyond the feeling just described there is no sense of gratification in the community that the death penalty in these cases is to be enforced. But society must protect itself. It must arm the law with terrors against any felonious attack upon the life even of the humblest of its members; and when life is taken it can make its admonitions for the future in the highest degree impressive and exemplary only by being inexorable. This is the present case. Upon these men sentence, then, must be executed, both because justice demands it and because experience proves that only by such terrible examples can others be deterred from taking life. No theory or harshness, hardness or cruelty on the part of the law can outweigh the duty society owes to itself. On this principle alone, apart from the strictly legal view of the case, is this matter to be considered. The extreme penalty can answer its main purpose, which is a deterent one only through rigorous enforcement in cases like these.

One of the features of the war over the New York custom house appointments is the development of a bitter feud between Senator Conkling and Secretary Sherman. It is asserted that Sherman has been trying to make out a case against the superseded officials and the senator who backs them by circulating a report through his secret service agents that Conkling was interested in moiety cases under the Arthur administration of the custom house. In return for this Conkling in his speech on the 15th attacked Sherman. He referred to the secretary's riches, and asked how he had obtained them. "All," he said, "who know his history, know that he entered public life a poor man, and that now he has great wealth. Had he saved every penny of his salary he would not have more than a reasonable competency. How did he get his money? The record of the courts did not show an account of cases he had conducted." And more to the same purpose. Throughout his speech Conkling referred to the president as "that man Hayes." This is a mode of speech he ought to be ashamed of. However just his retort on Sherman as an answer to a personal attack, there is a littleness in speaking in that manner of the president, particularly when the difference is nothing but a [illegible]el over "patronage."

The European method of distributing [illegible]ules" in taking a census of the [illegible] probably be adopted by the general government for the census of 1880. The printed blanks are distributed among families, and after being filled out on a named day are collected by the census agents. Greater accuracy, it is claimed, is attained by this plan, and also a saving of time and money. Gen. Walker, the superintendent of the census, expresses the opinion that if congress authorizes this method, the enumeration of every city and manufacturing town in the United States can be made in a single day, agricultural sections within three days and remote mining districts within thirty days. In 1870 the canvassers were allowed from the 1st of June to the 10th of September to make their returns—a leisurely process which very materially distracted from the accuracy and value of the result.

A bill to restrict Chinese immigration has been passed by the house of representatives and very probably will pass the senate. Agitation of this subject during the past few years has led to a great change of public opinion in the eastern states. Congress in taking this action is now no doubt representing a very large body of public opinion; though of course the demagogues add their numbers to the movement and such weight as they can give it. The new act will not molest any Chinese now in the United States, but is intended to obstruct their increase by immigration. Of course if its provisions are very restrictive there must within a few years be a great reduction of the number of Chinese in the United States.

The St. Paul *Pioneer-Press* says that the rumors of an alliance between the Northern Pacific and Texas Pacific interests come from a Texas source. The southern road doubtless desires such an alliance, but the northern neither desires nor needs it. The Northern Pacific asks no hing but simple justice and the confirmation of its rights, and it expects to get this without joining forces with a subsidy job.

Still the moribund *Standard* don't quote the English wheat market up to the figures given by the mountebank *Farmer*, though there figures were specially endorsed by it a day or two ago for the purpose of misrepresenting THE OREGONIAN's quotations. When two persons are vying toward the same focus, even though it be from different standpoints, they ought to meet sometime.

ARREARS OF PENSIONS.

Be it enacted, etc., that all pensions which have been granted under the general law regulating pensions, or may hereafter be granted in consequence of the death from cause which originated in the United States service during the continuance of the late war of the rebellion, or in consequence of wounds, injuries, or disease received or contracted in said service during said war of the rebellion, shall commence from the date of discharge from said service of the person on whose account the claim has been, or may hereafter be, granted, or from the termination of the right of the party having a prior title to such pension; *provided*, the rate of pension for the intervening time for which arrears of pension are hereby granted, shall be the same per month for which the pension was originally granted.

Sec. 2. That the commissioner of pensions is hereby authorized and directed to adopt such rules and regulations for the payment of arrears of pensions hereby granted, as will be necessary to cause to be paid to such pensioners, or if pensioners shall have died, to the person or persons entitled to the same, all such arrears of pension as the pensioner may be or would have been, entitled to under this act.

That section 4,717 of the revised statutes, which provides that no claim for pension not prosecuted to a successful issue within five years from the date of the filing of the same, shall be admitted without the recording of evidence from the war or navy department of the injury or disease which resulted in disability or death of the person on whose account the claim is made; *provided*, that in any case on which limitation prescribed by this section bars further prosecution of a claim, the claimant may present through the pension office to the adjutant general of the army or the surgeon general of the navy evidences that the disease or injury which resulted in disability or death of the person on whose account the claim is made, originated in the service and in the line of duty, and if such evidence is deemed satisfactory by the officers, to whom it may be submitted, he shall cause the record of the fact so proved to be made and a copy of the same transmitted to the commissioner of pensions, and the bar to the prosecution of the claim shall thereby be removed, and the same is hereby repealed.

Sec. 4. No claim agent or other person shall be entitled to receive any compensation for services in making application for arrears of pensions.

Sec. 5. That all acts or parts of acts, so far as they may conflict with the provisions of this act, be and the same are hereby repealed.

The Quarrel between Northern and Southern Democrats.

[New York Special, Jan. 24.]

The family quarrel in the house on Wednesday is evidently not concluded. According to the *World's* correspondent Williams, of Alabama, said: "I am very sorry that the discussion came up, and especially that Ellis should have been led into saying what he did. I am a southern man, and all my sympathies are with the people of my section. What Ellis said is true enough, but the effect of such things may be disastrous. The Democrats of the south must at all hazards maintain friendly relations with those of the north. It is comparatively a small thing if the party is defeated in the north, but defeat in the south means the utter ruin of the white race. I tell you the south is solid only in self-defense. We are Democrats, not always from choice, but from necessity. Where Republicanism means carpet-bagger and negro rule, and Democracy means the supremacy of our own race, no intelligent man need long hesitate as to which party he will join. Debate like that of yesterday can do no good."

The *Herald's* correspondent does not think the debate will be reopened. He says it is the fashion to speak of Bragg as a crotchety man, with an infirm temper but he expressed the sense and will of the northern Democrats yesterday. Republicans hope for success in he solid north, and this debate is likely to forewarn the south.

The *Times'* correspondent says: Further efforts will be made by southerners to renew the quarrel. Chalmers and others have already proposed speeches calculated to bind up the wounds of southern honor. The writer, though, thinks yesterday's debate has spoiled the Democratic pet scheme of an alliance between the south and west against the east.

Conkling's Brilliant Triumph.

[From the New York Herald.]

The brilliant triumph for Conkling is the highest compliment ever paid in this state to any citizen in the form of an election—the election of United States senator for three successive terms being without parallel in the annals of this state. An administration of his own political party undertook to destroy him. With all the federal patronage in its hands, with all Conkling's jealous rivals as its allies, with a revolution in the custom house as one of its many instruments all that it has succeeded in accomplishing has been to make the triumph of the statesman it undertook to crush the most complete and brilliant ever won in the political history of a state.

The Production of Silver.

[New York Special, Jan. 21.]

Professor Newberry, of the School of Mines of Columbia College, lectured at Steinway Hall last night on "Gold and Silver in the Past and Future." He traced the history of the precious metals down to the present time and gave an account of the earliest discoveries on this continent. He thought that the point of greatest production in silver had been reached by the immense yield of the Comstock lode. This body had been a disturbing element in the world's finances by the promise which it once gave of causing a glut of that metal. He believed, however, that Nature had come to the rescue; that hereafter the yield from that source would be only moderate in quantity.

CITY.

ANOTHER VERSION.—Mr. W. J. Riley, whom it was alleged left this city some days ago in company with the wife of a Mr. Swett, on the steamer *Oregon*, returned to Portland on the same steamer. Last evening Mr. Riley called at this office and stated that great injustice has been done him by the accounts published in the papers of the city. He alleges that he went to San Francisco to meet his wife, who was on her way from the east. Mrs. Swett sailed from Portland on the same steamer that Riley did, but the latter claims there was no agreement or understanding between them. He was not arrested in San Francisco, as has been stated, but meeting his wife there, they came back to Portland. Riley says he was ignorant of any judicial proceedings having been instituted against him until his return to Portland. After returning to this city he was arrested by Constable Wallace, of Justice Davis' court, but on being taken before the magistrate he was released on his own recognizance. To-day the matter will be investigated before Justice Davis. Riley states that Mrs. Swett is on her way east.

CRYSTAL WEDDING.—The fifteenth anniversary of the wedding of Mr. Wm. Honeyman, of the firm of Thompson, DeHart & Co., and his estimable wife, was duly celebrated Monday by the many friends of this couple. Mr. and Mrs. Honeyman were induced by several friends to go to church that evening. On returning home they found that a large number of their friends had taken possession of the house. Mr. and Mrs. H. had no alternative but to submit to the intrusion, and so endeavored to make every one feel perfectly at home. Several hours were passed most agreeably, music, dancing and speeches being the order of exercises. A number of handsome presents were left with the host and hostess.

BURGLARS BOUND OVER.—Two professional burglars named Robert Donner and Harry Osborne, alias James Dudley, were arrested Monday night on a charge of burglary. These fellows entered the candy store of Mr. Fred Bickel on First street and attempted to pick the counter drawer. They were, however, detected and arrested and lodged in jail. On searching them at the city jail the officer found in their pockets some keys, a pair of nippers and other implements of the "profession." Yesterday afternoon a preliminary examination was held before Judge Stearns, and the defendants were held to await the action of the grand jury, each in the sum of $1,000. They were committed in default of bonds.

THE UNION GOSPEL MEETINGS.—The Congregational church was filled last night; fourteen persons asked for the prayers of Christians. Dr. Lindsley's sermon was a very fine one, and the service of song a marked feature. To-night Rev. J. A. Cruzan will preach a brief sermon. The praise service at the introduction will last about twenty minutes, and in addition to the chorus one or two solos will be sung by good singers. All are invited.

LECTURE.—The Rev. Dr. Atkinson will lecture before the Mount Tabor Literary society Thursday evening, Jan. 30th. Subject of lecture, "The law of food in its relation to the physical, mental and physical condition of man." A general invitation is extended.

IMPORTANT NOTICE.—There will be a business meeting of the Olympic Club this (Wednesday) evening at 8 o'clock. Every member is earnestly requested to attend. Important business to be considered.

COURTS.—Yesterday morning the U. S. district court convened, but without transacting any business adjourned until next Tuesday morning. U. S. circuit court will convene this morning.

DALLES CHURCH SERVICE.—Bishop Morris has arranged to officiate next Sunday, Feb. 2, at the Dalles, administering the holy communion at the morning service.

AMUSEMENTS.

NEW MARKET THEATER.—The Serious Family was presented last evening to rather a slim attendance. The excellence of the performance certainly deserved a crowded house. Mr. Leman's "Aminidab Sleek" is a most excellent performance, and was well taken by the audience. Miss Walters, Miss Woodthorpe and Miss Wade all did excellently. The entertainment closed with the laughable farce of Irish Mesmerism. This evening Through by Daylight, for the benefit of James M. Ward.

THE NEW SEASON.—This evening's performance closes the present season of the New Market theater. The new season commences about one week hence, when will be presented the first of the Baldwin theater series of plays in "A Celebrated Case." This play will be mounted and the characters dressed exactly as they were in San Francisco, Mr Maguire having received the wardrobe, wigs, etc., on the steamer *Oregon*. Miss Annie Pixley will make her first bow to the Portland public in this great play, as will also the wonderful child actress "Little Maud." Mr. John Mason says his coming season will surpass the one just being finished, in the variety and excellence of attractions. The opening play surpasses in dramatic interest anything hitherto presented in this city, and unquestionably will draw large audiences.

MR. WARD'S BENEFIT.—To-night Mr. J. M. Ward, the favorite Irish comedian, will be the recipient of a complimentary benefit at New Market Theater. On this occasion will be presented his great sensational drama in three acts, and prologue entitled "Through by Daylight, or New York in 1862." This play will be presented with new scenery and with the full strength of the company. To give due effect to the piece, the City Rifles have kindly volunteered and will appear in full uniform in one scene. In addition Mr. Ward will appear as "Micky Corrigan" in song and jig; Miss Carrie Clark as "Julia," and Mr. Fred. Gere, as "Fleishman." Mrs. H. Parrish has kindly volunteered and will render a song. A large number of seats have already been sold and a crowded house can be predicted.

SOCIAL EVENTS.

A grand masquerade ball will be given at Turn Halle Monday evening, February 17th, under the management of that old and popular organization, the Portland Turn Verein. Prizes will be awarded the most elegant lady and gentleman masker; also the most comical lady and gentleman masker. Every necessary arrangement will be made and a large attendance and an enjoyable time may be confidently anticipated.

Last evening a large throng assembled at Prof. Halpruner's dancing academy to participate in the second masquerade ball given under his auspices. It was in every sense a signal success. At 9 o'clock the grand march was formed, and was composed of about twenty couples *en masque*, which number was augmented to about 50 couples before the march was over. As was previously announced, four prizes were to be given to the best sustained ladies and gentlemen's character, and to the most comical character of each. A committee consisting of Messrs. Hayes, Strader, Ward and the Misses Ross and Pampella were appointed to decide the doubtful question, and resulted in the following persons carrying off the palm: 1st prize for best ladies' suit, by Mrs. W. Moffett; best sustained lady's character, old lady knitting, Miss Lizzie Young; best gentleman's suit, "Washington," Mr. Chas. Zellar; and best comical gentleman's character, "plantation negro" Mr Charles ... The unmasking took place at 11 P. M. and from then till morn a merry time was indulged in. The costumes were numerous and of new and original design. All the city papers were well and fully represented, and received the admiration of all present for the taste and "make-up."

PERSONAL.

Mr. John Dudley, who has long been in the employ of the Portland Water Co., arrived on the steamer *Oregon*. He has been on a visit east for some time.

Mr. D. W. Taylor ex-city surveyor, returned on the last steamer. For several months he has been in Arizona following his profession—civil engineering, on the Colorado river.

Mr. Donald Macleay, our highly esteemed fellow townsman, returned to Portland on the steamer *Oregon* after nearly a year's absence. Mr. Macleay left here last February in the bark *Garibaldi* for Australia. From thence he proceeded by way of India to England and to his old home in bonny Scotland. On his return he came by steamer to New York and thence overland to San Francisco. Mr. M. reports having experienced a very pleasant time and returns in excellent health and spirits.

NAMES CHANGED.

The following dispatch was received by THE OREGONIAN last evening

DOOMED TO DEATH.

JOHNSON AND BROWN MUST DIE—THE DECISION OF THE CIRCUIT COURT AFFIRMED BY THE SUPREME COURT AT SALEM.

The telegraph brings news from Salem that the little thread to which James Johnson and Archie Brown, the robbers of O'Shea and the murderers of Louis Joseph, have clung has broken and that they must die. The appeal on points of law, which has been under consideration by the supreme court for several days, has resulted in affirmation of the sentence condemning them, and now no power on earth, save that of Governor Thayer, which there is no probability of being exercised, can save them. The following dispatch tells the story:

SALEM Jan. 28, 1879.

To Messrs. Caples & Mulkey—Judgment of the court below, in the case of the state vs Johnson and Brown, is affirmed. P. H. D'ARCY.

The execution will take place in the yard of the court house on the 7th of February. The sheriff informs us that only the number of citizens required by law as witnesses, and members of the press will be allowed to witness it.

HELL GATE STILL CLOSED

The raising of the ice blockade on the Upper Columbia seems to be a good distance in the future yet notwithstanding the genial weather we have recently had. Latest reports from Hell Gate, a few miles above Celilo, indicate a greater quantity of ice at that place than before for many years. Early in the freeze up the ice gorged there and as great masses of floating ice came down from above it continued to lodge so that now it is over 20 feet thick above the ordinary level of the water and probably as much below. This mass extends clear across the river and freezes harder every night. It is now thought that this ice gorge will not give for several weeks, unless warmer weather should prevail along the head waters of the river and raise the stream materially. The Columbia is also solidly blocked by a similar gorge at and below Long island, which lies a few miles this side of Umatilla.

AN EXPENSIVE TERM.

The Cost of Running the Judicial Machinery.

The term of the state circuit court which adjourned last Saturday, after being in session 82 days, cost the tax-payers of Multnomah a round sum. The cost of the term of court aggregates the enormous sum of $16,410.62. This includes the fees of the grand jury, attendance of the district attorney on the grand jury, fees of sheriff, bailiffs and crier, board, medicine and clothing of prisoners, sheriff's fees for serving subpœnas, fees of petit jurors, witness fees before the grand jury and in state cases, fees of clerk, fees of district attorney in state cases, cost of jurors in meals, lodgings, etc., defending prisoners and rewards. The cost of boarding and clothing the prisoners, furnishing medicine etc., is for the term of four months—while they were in jail awaiting the action of the grand jury and trial.

"MOUNT SHASTA AT SUNSET."

At the show window of Sanborn, Vail & Co., on First street, can be seen a large and very handsome oil painting just fresh from the brush of that very clever young artist, Mr. Edward Hill. The subject is "Mount Shasta at Sunset." Mr. Hill, if possible, has surpassed all his preceding efforts with the brush in the execution of this piece of art. He has handled the subject with a delicacy, breadth and we may add a shade of boldness and vigor, quite charming to the eye. The coloring is warm and rich, and nothing has been omitted in the matter of detail. Mr. Hill is engaged in painting a companion picture—a view of Mt. Adams. Mr. Yates, who represents the interest of Messrs. Sanborn, Vail & Co. in this city, has just placed an adjustable gas reflector in his show window, which greatly intensifies the light and adds much to the attractiveness of the display. The new painting attracts much public attention.

INTERESTING TO LADIES.—Dickey's "Creme de Lis" has now been before the public for ten years, during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being as all who have used it will verify, the only perfect preparation of its kind. Every ingredient entering the composition of Dickey's "Creme de Lis" is subjected to the most rigid test of modern Chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—it being well known the public will appreciate and support a truly meritorious article. Several new beautifiers under various names have lately started into existence, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

COAST SURVEYS.

An Interesting Controversy Between the Military and Civil Departments.

The following paragraph is taken from a recent number of the San Francisco *Chronicle*

For some time past there has been a controversy going on between General Humphreys, Chief of Engineers, United States Army, and Superintendent Patterson, of the United States Survey Department, the point being whether the military engineers should have control of the coast survey as well as of construction. The National Academy of Science proposed to consolidate all the government surveys of the west and place them under the coast survey. On the 13th inst. Secretary McCrary sent to the senate a long communication on the subject stating that "Since a thorough survey of the west, of any kind, will involve millions of dollars, and since the plan proposed by the National Academy, if adopted, will prevent the supplying of the war department with the maps which are requisite for the economic administration, and for the use of its officers in the field, I would invite special consideration of the Senate to the communication of the Chief of Engineers, with the recommendation that the appropriation for military surveys shall remain as before." The position taken by General Humphreys is that the Academy of Science exceeded its authority in making the recommendation for the consolidation of all the surveys. As to the cost of the plan proposed he says that scores of years would elapse and hundreds of millions of dollars have to be expended before the survey could be completed, while by the plan now carried on by the War Department, which is geodetic as well as topographic, the survey of the whole interior region would be completed in ten or fifteen years at a cost not exceeding $2,000,000. In reply to this, Superintendent Patterson sent a letter to congress insisting that there would be a great saving of money and no overlapping of work if the military engineers were confined to the duties of construction and surveys placed exclusively in the hands of the United States survey department. He explains that in the surveys only 13 engineers are employed, against 150 civilians, and that, in fact, while the engineers get all the credit for all the surveys made, the civil assistants do all the work.

MILITARY NOTES.

Private Samuel P. Goodwin, general service, will proceed, without delay, to the Dalles, Oregon, on public business; returning to these headquarters on completion thereof.

Paragraph 3, general orders No. 45, series of 1878, dissolving the general court martial convened at Fort Lapwai, I. T., per special orders. No. 119 paragraph 3, series of 1878, from these headquarters, is revoked.

Leave of absence for one month, with permission to apply for an extension of five months is granted First Lieutenant Edward S. Chapin, 4th artillery, (Fort Canby, W. T.,) to take effect at such time as another officer reports for duty with his company.

On the recommendation of his company and post commanders, the unexpired portion of the sentence awarded Arthur R. McConahay company K, 21st infantry, (general orders No 51, series of 1878, from these headquarters,) is remitted, and he will be restored to duty.

The following named officers will proceed without delay to the Dalles, Oregon, on public business: Major Charles G. Sawtelle, quartermaster, chief quartermaster, Major Thomas C. Sullivan, commissary of subsistence, chief commissary of subsistence, First Lieutenant Joseph A. Sladen, 14th infantry, aide de camp.

The commanding officer, Fort Vancouver, will send reliable non-commissioned officer with three privates, without delay, in charge of the four prisoners now in confinement at that post to the Dalles, Oregon. After reporting to the department commander at the Dalles, the guard will return to Fort Vancouver, W. T.

CAPTURED THE WRONG MAN.

Says the Salem paper: Some days since it was announced that Patrick Brown, an escaped convict, had been captured at Empire City and would in due time be brought to the penitentiary. On Monday last, Mr. Moore came down on the mail train with his prisoner heavily ironed. But when he presented his prisoner at the penitentiary his man did not fill the bill. The facts as we learned them from the victim of the cruel treatment are as follows: It seems that Morris J. O'Neil, some days ago went from Marshfield to Empire City, in Coos county, and got on a big drunk, he was arrested and put in the lockup and kept some three days by Moore of that city, assisted by his son Ed. He was kept pretty freely supplied with whisky all the time; on the third day he was heavily ironed and started at midnight in an open boat across the bay on the way to Salem, coming by way of Gardiner City and Scottsburg, to Drain's station thence to Salem.

Mr. O'Neil feels that he has been very unjustly treated by being arrested, heavily ironed and forcibly taken as a criminal over a long and tedious road to the very door of a felon's cell, and all for no cause save to gratify the greed of an individual in the hope of obtaining a paltry reward.

To Physicians and Patients.

Call on Dr Edward Henderson, Vitapathic Physician, N. E. corner First and Yamhill street, Portland, and have an *Electrical Cranial Diagnosis* made, which *never fails* to locate disease of any of the vital organs. Physicians, no matter how skillful, cannot always determine the exact location of disease until, in too many cases, it is beyond control. Dr. Henderson also cures all manner of disease by the use of *Magnetism, Magnetic Herbal* remedies and *Electricity*, and is remarkably successful in treating most of the so called surgical diseases *without the use of the knife or other surgical instrument.*

CHILDREN DO NOT DIE of the croup to whom DR. WM. HALL'S BALSAM FOR THE LUNGS is administered. Parents will do well to remember this fact and keep a medicine, which saved so many lives, in the house ready for an emergency. The Balsam overcomes a tendency to consumption, strengthens weak and heals sore lungs, remedies painful and asthmatic breathing, banishes hoarseness and cures all bronchial and tracheal inflammation. If you have a cough, use it early and often. All druggists sell it. Beware of imitations. Ask for Hall's Balsam for the Lungs and take no other.

ENJOY LIFE.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means for enjoyment. We can desire no better when in perfect health, but how often do the majority of people feel like giving it up disheartened, discouraged, and worried out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and Liver Complaint is the direct cause of seventy-five per cent of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it. Sold by all druggists

This great remedy was discovered by a missionary in South America. Send a self addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City*

PERSONAL AND GENERAL.

Col. Ingersoll made $26,000 by lecturing last year.

A Washington journal excites comment by printing the list of marriage licenses under the head of market reports.

The Wisconsin penitentiary, with 350 inmates cleared $10,000 above the expenses last year, and no appropriation is asked from the state for its maintenance this year.

A few days ago Hendricks, Blaine, Thurman and Conkling were sitting on a lounge together in the senate chamber, and were pointed out as "four presidential candidates in a row."

The celebrated Dr. Snow, of Providence, R. I., is quoted as saying: "Where there is abundant sunlight, dryness, good drainage and pure air, and with a plentiful supply of pure water, diphtheria cannot prevail."

In one of the recent articles in the *Contemporary Review* on the alcohol question, Dr. Brunton, an eminent physician, says that the "effect of alcohol upon the nervous system may be described as one of progressive paralysis."

There was quite a scene at Washington the other day when General Miles captured Chief Joseph in the corridors of one of the hotels. Miles took possession of him and showed him round everywhere. Although Joseph wears the Indian costume he can read and write, and registered his own name at the hotel.

The Springfield *Republican*, usually one of the best posted papers in America, says: "Should these mines (the Comstock) cease producing altogether, there are enough others in Nevada to keep up the large aggregate yield of the past in that territory." This is sad for a full fledged state of this glorious republic

Whitelaw Reid, in introducing his compilation of the cipher telegrams, now published in pamphlet form, says: "The men who found and applied the key to them were members of the *Tribune* staff—Mr. Hassler and Colonel Wm. Grosvenor. They were working on the matter for weeks, and the credit of the translation belongs solely to them.

The other day after Conkling had made a bitter speech against the president on the New York nominations no one appeared as the president's defender. Presently, however, Thurman remarked in a jocose way that it was hard for him to sit still and hear a citizen of Ohio attacked, but he was not in the mood to defend him at that moment. It is charged that Hayes is using small methods to accomplish his purposes, and that the use of such methods is defended by nobody in the senate.

Judge Key recently told two North Carolina congressmen who applied to him to appoint a Democrat to a $2,500 postoffice in that state, that he should do nothing of the sort, and that he should hereafter appoint to federal offices in the south only Republicans. The president is reported to have said not long since that Judge Key is the most pronounced Republican in his cabinet. This report seems to confirm it, for the president himself has not been above appointing Democrats to office in the south.

A Result Preceding a Cause.

[New York World, Dem.]

Perhaps the telegraph does him injustice, but, if its tricks may be trusted, Senator Voorhees made the truly interesting financial discovery that the financial panic of 1873 was the "appalling penalty" paid by the misguided people of this country for the "bare proclamation of specie resumption,"—the said bare proclamation, if we mistake not, having been made in 1875.

Boston "Culchah."

[From the Cincinnati Commercial.

The first thing the native of Boston does, after the severance of the umbilical cord, is to procure a copy of Emerson's essays and carry it along the street under his left arm; the next thing is to saddle his nose with a pair of gold rimmed spectacles, and he winds up by riding a fiery and untamed bicycle through the streets.

"Cast your Bread upon the waters and it shall return to you after many days."—Scripture.

TWO MORE HELPLESS CHRONIC CASES CURED IN ONE FAMILY, HUSBAND AND WIFE—TWO MORE FINGER BOARDS ERECTED TO POINT THE SUFFERING THOUSANDS OF THIS COAST TO A GENUINE HEALER, WHOSE CURES ARE ALWAYS PERMANENT, AND WHO NEVER FAILS TO CURE EVERY CURABLE DISEASE OF WHATEVER NAME OR NATURE.

The following cases were treated over 8 months ago, and both were complicated cases of Rheumatism and Paralysis, and were beyond the reach of medicine, more especially so, as both were old, and the vital forces very much depleted. The permanent cure of these two sufferers in *one short week's* treatment is *most respectfully dedicated* to the *thousands of hopeless sufferers* on this coast, hoping that they may go and do likewise. Permanent office southeast corner of Front and Washington streets, Portland, Oregon:

In this condition I received eight treatments from Dr. C. M. GALLOWAY AND WATKINDS.

Hon. Wm. Galloway sends us the following, with special request to publish. We comply because, though disliking these personalities, the matters referred to are of a public nature.

SALEM Jan. 27, 1879

TO THE EDITOR OF THE OREGONIAN:

The following letter was sent me by W. H. Watkinds. The statements are all false. I desire it published to show what the writer is capable of. I have no doubt he can produce any kind of affidavit or letter that he wants. He and his associates who were so successful in plundering the state will not hesitate to manufacture affidavits and letters.
WILLIAM GALLOWAY.

PORTLAND Or., Jan. 23, 1879

Hon Wm Galloway. DEAR SIR—I have taken all the evidence in answer to the report of the investigating committee and am about to publish the same. I would like for you to come and look at the evidence before publishing it, as I think you will retract the statements contained in said report concerning myself. If you do not retract I will be compelled to publish some of your private letters now in my possession, that you wrote to me for money to buy a lot of half breed votes prior to the election in 1871 said half-breeds being in the vicinity of Dayton, Or. Money was paid to you in 1871 and sent to you in 1878. This I shall dislike to do very much, as you and I have always been friends, but I cannot lay under the false charges made by your committee in your statement as to what Mr Osborne testified in regard to the whisky. Gov. Thayer and myself examined the testimony, and find that Osborne made no statement about the whisky in any way whatever. I have affidavits from all the parties named in your report denying every statement you made. Judge Bonham called upon Mr Miller at the prison and found my books in their proper place, and had been there all the time. You claim I spent $17,000 or $18,000 for groceries bought of M. Meyer. Mr. C. B. Moores has examined Meyer's account carefully and found $3,000 or $4,000 to be for clothing, blankets, hardware, leather, grain, cutlery, nails, etc., and about $1,600 for coal oil, besides the last amount mentioned. You also report the drug bill over double what it really is. There was a credit on the bill of Belt & Hall (drug bill) which you saw fit to put in your report for overcharges on whisky and wines. No such amount as was in that bill was ever got or paid for. The corrections are with the voucher, and the committee could not helped but seeing it. Believing that you did not examine this matter fully, trusting to Thompson to make out a fair statement of facts, when you see the evidence I have taken you will see that the report does me great injustice. Yours truly,
W. H. WATKINDS.

DR. D. HALL McLENNAN,

Vital Magnetic Healer,
is now permanently located at
153 Fourth St., Corner of Morrison,
PORTLAND, OREGON.

Where those who are sick and need a physician should call on him, as he is performing cures by his natural powers of healing that has baffled all other methods of treatment. Invalids who have hitherto tried everything in vain should take courage, and leave off taking nauseating drugs in which are lurking the arrows of death, and try the living principles of Vital Magnetism, nature's mysterious gift to man. No medicine is used except when upon examination it is actually found to be wanting, and then only Herbal remedies, containing no mercury, calomel, or other poison. By this wonderful power of nature pain is removed in a few minutes, and broken down constitutions built up in a short time.

Physicians having in charge cases that resist the potency of drugs will confer a blessing on such by recommending them to this GREAT HEALER.

To parties not able to appear personally, he will send Magnetic paper and medicine with full directions.

Consultation either in person or by mail is free. Consult him, as it may be the means of restoring you to health and happiness.

ROOT TEA!

The Reliable Cure for Chronic Complaints of Liver and Kidneys.

THE ONLY THOROUGH BLOOD CLEANSER. The most pleasing, grateful and satisfactory Strengthening Balsam known, constantly effecting surprising cures of wasting or debilitating diseases and complaints arising from weak or impure blood, feeble circulation or impaired digestion, when all modes of treatment fail. Is of great benefit in threatened or actual consumption and heart disease, owing to its peculiar and great influence on the circulation. For the ills and weaknesses of women it is Nature's most suitable and reliable remedy.

LIVER--KIDNEYS.

Its regulating and strengthening action on these organs is different to and more desirable than that of any article heretofore in use; for indigestion, biliousness, etc., as a tonic, anti-malarial, etc., it is unequaled, while in chronic complaints it gives relief when all other remedies fail, and is frankly acknowledged to be the only cure for many chronic complaints of a complicated nature.

CATARRH,

The success of the CALIFORNIA ROOT TEA in curing Catarrh is proverbial, and surprises many who do not understand the nature of this terrible disease, which in most cases can be permanently cured only through the blood by a thorough course of this vegetable remedy, conceded to be the only thorough and permanent blood cleanser known, a course of it completely eradicating for all time the most virulent types of blood and skin diseases, rheumatism etc. All who use it, leading druggists and physicians gladly attest its great sterling worth.

Sold in its truly vegetable form, in packets at $1; each packet makes a quart of rich balsam, of which the dose is two spoonsful three times daily, making its cost much less than other medicines. Make like tea or put in wine, etc.; pleasant to take when nicely sweetened. It is nature's life-bearing balsam—its success assured in advance in all cases.

Ask for it and take no drugs or disguised mercury. Six pkts, $5 00.

PEOPLE AND GOVERNMENT

Careful observers do not fail to note in American communities the manifest tendency to rely more and more on the government for direction and help in all the affairs of life By large numbers government is expected to do pretty much everything When anything is thought of that would be desirable an act of the legislature is the very first thing suggested Large classes refuse to look for resources in their own energies, where resources alone can be found We have just fallen upon a discourse recently delivered by ex Gov Seymour in New York which contains many pregnant sentences devoted to a remonstrance against the increasing misconception of the functions of government involved in this idea that somehow or other the state is to work out the problem of life for every individual and take care of his well being The remarks made by Gov Seymour on this subject were embodied in a discourse on the depression of the times and incidentally on the disposition of large classes to turn to the government for relief He said The social political and business evils which affect our country are not to be cured by political strategy nor by tricks of statesmanship No country can be legislated out of distress, crime or poverty These are words of soberness and wisdom to be set in contrast with the vain babblings of partisans who never fail to assert that the ascendency of their political party is the only thing necessary to cure all the evils of the time Again "No laws in civilized countries are potent for good which do not emanate from the sentiments, habits and virtues of the people They demand personal fireside and local reforms They cannot be made by others for us They must be wrought by each man in the use of his special intelligence and personal powers, in office and out of it, in all forms of work This is the kind of precept the country needs It may be called commonplace, and yet no time ever demanded it more All first truths are of the commonplace and familiar sort. New discoveries so called, of a paradoxical and misleading sort, may lay claim to brilliancy, and for a time they may be as current as copper counters,—and about as valuable But time approves few things and after every effort to seek out new inventions in this department of experience we are thrown back on those principles which were among the first discoveries of mankind True as they are they never will be superseded A century ago, when revolutionary madness was shaking most of the civilized world, Burke told the apostles of innovation in his words of tremendous energy that they had no new discovery to announce in relation to the powers and duties of government in taking care of a people for whose convenience it existed; and those to whom these words were addressed passed through a stormy and bloody period of twenty-five years to find his words true at last. Men like Gov. Seymour, who speak doctrines like these, rise above demagogy and do their country a service which is constantly needed to counteract visionary notions that injuriously affect individuals by leading them away from self-reliance and self helpfulness Just now there is great demand for restriction of Chinese immigration, and congress is passing a law on that subject. The argument for it contains many good reasons, and yet those who are most loudly demanding it will be disappointed in its results, since as a rule they will find the measure will bring them little improvement of opportunity. It will be necessarily so, because every man's remedies and fortunes lie mainly within himself, and this must always be true No act of society or of government can ever make it otherwise

THE EXTREME PENALTY

Every remedy has been exhausted in favor of Brown and Johnson, now under sentence for murder, and the decree of the court that they be hanged on the 7th February must be enforced As this awful retribution approaches its consummation there is some change in the tone of public feeling, but no relenting, nor anything like a deprecation of the sentence of the law, or a wish to avert it The feeling is not one of vindictiveness toward those whose crime has brought upon them this most dreadful penalty of the law It is a feeling first that justice demands the execution of the sentence, and next, that the safety of society requires it There is no heat or passion about it, beyond the feeling just described there is no sense of gratification in the community that the death penalty in these cases is to be enforced But society must protect itself. It must arm the law with terrors against any felonious attack upon the life even of the humblest of its members, and when life is taken it can make its admonitions for the future in the highest degree impressive and exemplary only by being inexorable. This is the present case Upon these men sentence, then, must be executed both because justice demands it and because experience proves that only by such terrible examples can others be deterred from taking life No theory or harshness, hardness or cruelty on the part of the law can outweigh the duty society owes to itself On this principle alone, apart from the strictly legal view of the case, is this matter to be considered The extreme penalty can answer its main purpose, which is a deterrent one only through rigorous enforcement in cases like these

One of the features of the war over the New York custom house appointments is the development of a bitter feud between Senator Conkling and Secretary Sherman It is asserted that Sherman has been trying to make out a case against the superseded officials and the senator who backs them by circulating a report through his secret service agents that Conkling was interested in moiety cases under the Arthur administration of the custom house In return for this Conkling in his speech on the 15th attacked Sherman. He referred to the secretary's riches, and asked how he had obtained them "All" he said "who know his history, know that he entered public life a poor man and that now he has great wealth Had he saved every penny of his salary he would not have more than a reasonable competency How did he get his money?" The report of the court ... show an account of cas... he had contracted And more to the same purpose Throughout his speech Conkling referred to the president as that man Hayes This is a m... speech he ought to be ashamed of However ... his retort on Sherman ... personal attack there is a littleness in speaking in that manner of the president ... lastly when the difference is nothing but a quarrel over patronage

European method of distributing ... in taking a census of the ... probably be adopted by the general government ... the census of 1880 The printed blanks are distributed among families and after being filled out on a named day are collected by the census agents Greater accuracy is claimed is attained by this plan and ... a saving of time and money Gen Walker the superintendent of the census expresses the opinion that if congress authorize this method the enumeration of every city and manufacturing town in the United States can be made in a single day agricultural sections within three days and ... mining districts within thirty days ... 1870 the canvassers were allowed from the 1st of June to the 10th of September to make their returns—a leisurely process which very materially distracted from the accuracy and value of the result

A bill to restrict Chinese immigration has been passed by the house of representatives and very probably will pass the senate Agitation of this subject during the past few years has led to a great change of public opinion in the eastern states Congress in taking this action is now no doubt representing a very large body of public opinion though of course the demagogues add their numbers to the movement and such weight as they can give it The new act will not molest any Chinese now in the United States, but is intended to obstruct their increase by immigration Of course if its provisions are very restrictive there must within a few years be a great reduction of the number of Chinese in the United States

The St Paul *Pioneer Press* says that the rumors of an alliance between the Northern Pacific and Texas Pacific interests come from a Texas source The southern road doubtless desires such an alliance but the northern neither desires nor needs it The Northern Pacific asks nothing but simple justice and the confirmation of its rights, and it expects to get this without joining forces with a subsidy job

Still the moribund *Standard* don't quote the English wheat market up to the figures given by the mountebank *Farmer* though these figures were specially endorsed by it a day or two ago for the purpose of misrepresenting THE OREGONIAN'S quotations When two persons are lying toward the same focus, even though it be from different standpoints, they ought to meet sometime

ARREARS OF PENSIONS

Full Text of the Act as Passed by Both Houses of Congress.

An act to provide that all pensions on account of death or wounds received, or disease contracted in the service of the United States during the late war of the rebellion, which have been granted or which shall hereafter be granted shall commence from the date of death or discharge from the service of the United States, and for the payment of arrears, pensions and other purposes

Be it enacted, etc that all pensions which have been granted under the general law regulating pensions, or may hereafter be granted in consequence of the death from cause which originated in the United States service during the continuance of the late war of the rebellion, or in consequence of wounds, injuries, or disease received or contracted in said service during said war of the rebellion shall commence from the date of discharge from said service of the person on whose account the claim has been or may hereafter be granted, or from the termination of the right of the party having a prior title to such pension *provided* the rate of pension for the intervening time for which arrears of pension are hereby granted, shall be the same per month for which the pension was originally granted.

Sec. 2 That the commissioner of pensions is hereby authorized and directed to adopt such rules and regulations for the payment of arrears of pensions hereby granted, as will be necessary to cause to be paid to such pensioners, or if pensioners shall have died, to the person or persons entitled to the same, all such arrears of pension as the pensioner may be or would have been, entitled to under this act

Sec 3. That section 4,717 of the revised statutes, which provides that no claim for pension not prosecuted to a successful issue within five years from the date of the filing of the same, shall be admitted without the recording of evidence from the war or navy department of the injury or disease which resulted in disability or death of the person on whose account the claim is made, *provided*, that in any case on which limitation prescribed by this section bars further prosecution of a claim, the claimant may present through the pension office to the adjutant general of the army or the surgeon general of the navy evidences that the disease or injury which resulted in disability or death of the person on whose account the claim is made, originated in the service and in the line of duty and if such evidence is deemed satisfactory by the officers, to whom it may be submitted he shall cause the record of the fact so proved to be made and a copy of the same transmitted to the commissioner of pensions, and the bar to the prosecution of the claim shall thereby be removed and the same is hereby repealed

Sec. 4. No claim agent or other person shall be entitled to receive any compensation for services in making application for arrears of pensions

Sec 5 That all acts or parts of acts, so far as they may conflict with the provisions of this act, be and the same are hereby repealed

The Quarrel between Northern and Southern Democrats.

[New York Special, Jan 24.]

The family quarrel in the house on Wednesday is evidently not concluded According to the *World's* correspondent Williams, of Alabama, said I am very sorry that the discussion came up and especially that Ellis should have been led into saying what he did I am a southern man and all my sympathies are with the people of my section What Ellis said is true enough, but the effect of such things may be disastrous The Democrats of the south must at all hazards maintain friendly relations with those of the north It is comparatively a small thing if the party is defeated in the north, but defeat in the south means the utter ruin of the white race I tell you the south is solid only in self-defense. We are Democrats, not always from choice, but from necessity Where Republicanism means carpet-bagger and negro rule, and Democracy means the supremacy of our own race, no intelligent man need long hesitate as to which party he will join Debate like that of yesterday can do no good

The *Herald's* correspondent does not think the debate will be reopened He says it is the fashion to speak of Bragg as a cranky man with an infirm temper but he expressed the sense and will of the northern Democrats yesterday Republicans hope for success in the solid north, and this debate is likely to forewarn the south

The *Times'* correspondent says Further efforts will be made by southerners to renew the quarrel Chalmers and others have already proposed speeches calculated to bind up the wounds of southern honor The writer, though thinks yesterday's debate has spoiled the Democratic pet scheme of an alliance between the south and west against the east

Conkling's Brilliant Triumph.

[From the New York Herald]

The brilliant triumph for Conkling is the highest compliment ever paid in this state to any citizen in the form of an election —the election of United States senator for three successive terms being without parallel in the annals of this state An administration of his own political party undertook to destroy him With all the federal patronage in its hands, with all Conkling's jealous rivals as its allies with a revolution in the custom house as one of its many instruments all that it has succeeded in accomplishing has been to make the triumph of the statesman it undertook to crush the most complete and brilliant ever won in the political history of a state

The Production of Silver

New York ... Jan 24

Professor Newberry, of the School of Mines of Columbia College lectured at Steinway hall last night on Gold and Silver in the ... He traced the history of ... precious metals down to the present time and gave an account of the earliest discoveries on this continent He thought that the point of greatest production in silver had been reached by the immense yield of the Comstock lode This body had been a disturbing element in the world's finances by the promise which it once gave of causing a glut of that metal He believed however that Nature had come to the rescue that her after the yield from that source would be only moderate in quantity

PEOPLE AND GOVERNMENT

Careful observers do not fail to note in American communities the manifest tendency to rely more and more on the government for direction and help in all the affairs of life By large numbers government is expected to do pretty much every thing When anything is thought of that would be desirable an act of the legislature is the very first thing suggested Large classes refuse to look for resources in their own energies where resources alone can be found We have just fallen upon a discourse recently delivered by ex Gov Seymour in New York which contains many pregnant sentences devoted to a remonstrance against the increasing misconception of the functions of government involved in this idea that somehow or other the state is to work out the problem of life for every individual and take care of his well-being The remarks made by Gov Seymour on this subject were embodied in a discourse on the depression of the times and incidentally on the disposition of large classes to turn to the government for relief He said The social political and business evils which affect our country are not to be cured by political strategy nor by tricks of statesmanship No country can be legislated out of distress, crime or poverty These are words of soberness and wisdom to be set in contrast with the vain babblings of partisans who never fail to assert that the ascendency of their political party is the only thing necessary to cure all the evils of the time Again "No laws in civilized countries are potent for good which do not emanate from the sentiments, habits and virtues of the people They demand personal fireside and local reforms They cannot be made by others for us They must be wrought by each man in the use of his special intelligence and personal powers in office and out of it, in all forms of work This is the kind of precept the country needs It may be called commonplace, and yet no time ever demanded it more. All first truths are of the commonplace and familiar sort New discoveries so called, of a paradoxical and misleading sort, may lay claim to brilliancy, and for a time they may be as current as copper counters,—and about as valuable But time approves few things and after every effort to seek out new inventions in this department of experience we are thrown back on those principles which were among the first discoveries of mankind Trite as they are they never will be superseded A century ago, when revolutionary madness was shaking most of the civilized world, Burke told the apostles of innovation in his words of tremendous energy that they had no new discovery to announce in relation to the powers and duties of government in taking care of a people for whose convenience it existed, and those to whom these words were addressed passed through a stormy and bloody period of twenty five years to find his words true at last. Men like Gov Seymour, who speak doctrines like these, rise above demagogy and do their country a service which is constantly needed to counteract visionary notions that injuriously affect individuals by leading them away from self reliance and self helpfulness Just now there is great demand for restriction of Chinese immigration, and congress is passing a law on that subject The argument for it contains many good reasons, and yet those who are most loudly demanding it will be disappointed in its results, since as a rule they will find the measure will bring them little improvement of opportunity. It will be necessarily so, because every man's remedies and fortunes lie mainly within himself, and this must always be true. No art of society or of government can ever make it otherwise

THE EXTREME PENALTY

Every remedy has been exhausted in favor of Brown and Johnson, now under sentence for murder, and the decree of the court that they be hanged on the 7th February must be enforced As this awful retribution approaches its consummation there is some change in the tone of public feeling, but no relenting, nor anything like a deprecation of the sentence of the law, or a wish to avert it The feeling is not one of vindictiveness toward those whose crime has brought upon them this most dreadful penalty of the law It is a feeling first, that justice demands the execution of the sentence, and next, that the safety of society requires it There is no heat or passion about it, beyond the feeling just described there is no sense of gratification in the community that the death penalty in these cases is to be enforced. But society must protect itself I must arm the law with terrors against any felonious attack upon the life even of the humblest of its members, and when life is taken it can make its admonitions for the future in the highest degree impressive and exemplary only by being inexorable. This is the present case Upon these men sentence, then, must be executed both because justice demands it and because experience proves that only by such terrible examples can others be deterred from taking life No theory or harshness, hardness or cruelty on the part of the law can outweigh the duty society owes to itself On this principle alone, apart from the strictly legal view of the case, is this matter to be considered The extreme penalty can answer its main purpose, which is a deterrent one only through rigorous enforcement in cases like these

One of the features of the war over the New York custom house appointments is the development of a bitter feud between Senator Conkling and Secretary Sherman It is asserted that Sherman has been trying to make out a case against the superseded officials and the senator who backs them by circulating a report through his secret service agents that Conkling was interested in moiety cases under the Arthur administration of the custom house In return for this Conkling in his speech on the 15th attacked Sherman. He referred to the secretary's riches and asked how he had obtained them "All he said who know his history, know that he entered public life a poor man and that now has great wealth Had he saved every penny of his salary he would not have more than a reasonable competency How did he get his money? The record of the courts did not show an account of cases he had conducted And more to the same purpose Throughout his speech Conkling referred to the president as that man Hayes This is a mode of speech he ought to be ashamed of However just his retort on Sherman as a man so rich a personal attack there is a littleness in speaking in that manner of the president particularly when the difference is nothing but a quarrel over "patronage"

European method of distributing schedules in taking a census of the ... probably be adopted by the general government in the census of 1880 The printed blanks are distributed among families and after being filled out on a named day are collected by the census agents Greater accuracy is claimed is attained by this plan and also saying of time and money Gen Walker the superintendent of the census expresses the opinion that if congress authorizes this method, the enumeration of every city and manufacturing town in the United States can be made in a single day agricultural sections within three days and remote mining districts within thirty days In 1870 the canvassers were allowed from the 1st of June to the 10th of September to make their returns—a leisurely process which very materially distracted from the accuracy and value of the result

A bill to restrict Chinese immigration has been passed by the house of representatives and very probably will pass the senate Agitation on this subject during the past few years has led to a great change of public opinion in the eastern states Congress in taking this action is now no doubt representing a very large body of public opinion though of course the demagogues add their numbers to the movement and such weight as they can give it The new act will not molest any Chinese now in the United States but is intended to obstruct their increase by immigration Of course if its provisions are very restrictive there must within a few years be a great reduction of the number of Chinese in the United States

The St Paul *Pioneer Press* says that the rumors of an alliance between the Northern Pacific and Texas Pacific interests come from a Texas source The southern road doubtless desires such an alliance but the northern neither desires nor needs it The Northern Pacific asks nothing but simple justice and the confirmation of its rights, and it expects to get this without joining forces with a subsidy job

Still the moribund *Standard* don t quote the English wheat market up to the figures given by the mountebank *Farmer* though these figures were specially endorsed by it a day or two ago for the purpose of misrepresenting THE OREGONIAN s quotations When two persons are lying toward the same focus, even though it be from different standpoints they ought to meet sometime

ARREARS OF PENSIONS

Full Text of the Act as Passed by Both Houses of Congress.

An act to provide that all pensions on account of death or wounds received, or disease contracted in the service of the United States during the late war of the rebellion which have been granted or which shall hereafter be granted shall commence from the date of death or discharge from the service of the United States and for the payment of arrears, pensions and other purposes.

Be it enacted, etc that all pensions which have been granted under the general law regulating pensions, or may hereafter be granted in consequence of the death, from cause which originated in the United States service during the continuance of the late war of the rebellion, or in consequence of wounds, injuries or disease received or contracted in said service during said war of the rebellion shall commence from the date of discharge from said service of the person on whose account the claim has been or may hereafter be granted, or from the termination of the right of the party having a prior title to such pension *provided* the rate of pension for the intervening time for which arrears of pension are hereby granted, shall be the same per month for which the pension was originally granted.

Sec. 2 That the commissioner of pensions is hereby authorized and directed to adopt such rules and regulations for the payment of arrears of pensions hereby granted as will be necessary to cause to be paid to such pensioners, or if pensioners shall have died, to the person or persons entitled to the same, all such arrears of pension as the pensioner may be or would have been entitled to under this act.

Sec 3. That section 4,717 of the revised statutes which provides that no claim for pension not prosecuted to a successful issue within five years from the date of the filing of the same, shall be admitted without the recording of evidence from the war or navy department of the injury or disease which resulted in disability or death of the person on whose account the claim is made *provided* that in any case on which limitation prescribed by this section bars further prosecution of a claim, the claimant may present through the pension office to the adjutant general of the army or the surgeon general of the navy evidences that the disease or injury which resulted in disability or death of the person on whose account the claim is made, originated in the service and in the line of duty, and if such evidence is deemed satisfactory by the officers, to whom it may be submitted he shall cause the record of the fact so proved to be made and a copy of the same transmitted to the commissioner of pensions and the bar to the prosecution of the claim shall thereby be removed and the same is hereby repealed

Sec. 4. No claim agent or other person shall be entitled to receive any compensation for services in making application for arrears of pensions

Sec 5 That all acts or parts of acts so far as they may conflict with the provisions of this act be and the same are hereby repealed

The Quarrel between Northern and Southern Democrats

[New York Special Jan. 24.]

The family quarrel in the house on Wednesday is evidently not concluded According to the *World* s correspondent Williams, of Alabama, said "I am very sorry that the discussion came up, and especially that Ellis should have been led into saying what he did I am a southern man and all my sympathies are with the people of my section What Ellis said is true enough, but the effect of such things may be disastrous The Democrats of the south must at all hazards maintain friendly relations with those of the north It is comparatively a small thing if the party is defeated in the north, but defeat in the south means the utter ruin of the white race I tell you the south is solid only in self-defense We are Democrats, not always from choice, but from necessity Where Republicanism means carpet-bagger and negro rule, and Democracy means the supremacy of our own race, no intelligent man need long hesitate as to which party he will join Debate like that of yesterday can do no good

The *Herald's* correspondent does not think the debate will be reopened He says it is the fashion to speak of Bragg as a crotchety man with an infirm temper but he expressed the sense and will of the northern Democrats yesterday Republicans hope for success in the solid north and this debate is likely to forewarn the south

The *Times* correspondent says further efforts will be made by southerners to renew the quarrel Chalmers and others have already proposed speeches calculated to bind up the wounds of southern honor The writer, though thinks yesterday's debate has spoiled the Democratic pet scheme of an alliance between the south and west against the east

Conkling's Brilliant Triumph.

[From the New York Herald]

The brilliant triumph for Conkling is the highest compliment ever paid in this state to any citizen in the form of an election —the election of United States senator for three successive terms being without parallel in the annals of this state An administration of his own political party undertook to destroy him With all the federal patronage in its hands, with all Conkling s jealous rivals as its allies with a revolution in the custom house as one of its many instruments all that it has succeeded in accomplishing has been to make the triumph of the statesman it undertook to crush the most complete and brilliant ever won in the political history of a state

The Production of Silver

[New York Special Jan ...]

Professor Newberry, of the School of Mines of Columbia College lectured at Steinway Hall last night on Gold and Silver in the Past and Future He traced the history of the precious metals down to the present time and gave an account of the earliest discoveries on this continent He thought that the point of greatest production in silver had been reached by the immense yield of the Comstock lode This body had been a disturbing element in the world s finances by the promise which it once gave of causing a glut of that metal He believed however that Nature had come to the rescue that hereafter the yield from that source would be only moderate in quantity

CITY.

ANOTHER VERSION.—Mr. W. J. Riley, whom it was alleged left this city some days ago in company with the wife of a Mr. Swett, on the steamer *Oregon*, returned to Portland on the same steamer. Last evening Mr. Riley called at this office and stated that great injustice has been done him by the accounts published in the papers of the city. He alleges that he went to San Francisco to meet his wife, who was on her way from the east. Mrs. Swett sailed from Portland on the same steamer that Riley did, but the latter claims there was no agreement or understanding between them. He was not arrested in San Francisco, as has been stated, but meeting his wife there, they came back to Portland. Riley says he was ignorant of any judicial proceedings having been instituted against him until his return to Portland. After returning to this city he was arrested by Constable Wallace, of Justice Davis' court, but on being taken before the magistrate he was released on his own recognizance. To-day the matter will be investigated before Justice Davis. Riley states that Mrs. Swett is on her way east.

CRYSTAL WEDDING.—The fifteenth anniversary of the wedding of Mr. Wm. Honeyman, of the firm of Thompson, DeHart & Co.) and his estimable wife, was duly celebrated Monday by the many friends of this couple. Mr. and Mrs. Honeyman were induced by several friends to go to church that evening. On returning home they found that a large number of their friends had taken possession of the house. Mr. and Mrs H. had no alternative but to submit to the intrusion, and so endeavored to make every one feel perfectly at home. Several hours were passed most pleasantly, music, dancing and speeches being the order of exercises. A number of handsome presents were left with the host and hostess.

BURGLARS BOUND OVER.—Two professional burglars named Robert Donner and Harry Osborne, alias James Dudley, were arrested Monday night on a charge of burglary. These fellows entered the candy store of Mr. Fred Bickel on First street and attempted to pick the counter drawer. They were, however, detected and arrested and lodged in jail. On searching them at the city jail the officer found in their pockets some keys, a pair of nippers and other implements of the "profession." Yesterday afternoon a preliminary examination was held before Judge Stearns, and the defendants were held to await the action of the grand jury, each in the sum of $1,000. They were committed in default of bonds.

THE UNION GOSPEL MEETINGS.—The Congregational church was filled last night; fourteen persons asked for the prayers of Christians. Dr. Lindsley's sermon was a very fine one, and the service of song a marked feature. To-night Rev. J. A. Cruzan will preach a brief sermon. The praise service at the introduction will last about twenty minutes, and in addition to the chorus one or two solos will be sung by good singers. All are invited.

LECTURE.—The Rev. Dr. Atkinson will lecture before the Mount Tabor Literary society Thursday evening, Jan. 30th. Subject of lecture, "The law of food in its relation to the moral, mental and physical condition of man." A general invitation is extended.

IMPORTANT NOTICE.—There will be a business meeting of the Olympic Club this (Wednesday) evening at 8 o'clock. Every member is earnestly requested to attend. Important business to be considered.

COURTS.—Yesterday morning the U. S. district court convened, but without transacting any business adjourned until next Tuesday morning. U. S. circuit court will convene this morning.

DALLES CHURCH SERVICE.—Bishop Morris has arranged to officiate next Sunday, Feb. 2, at the Dalles, administering the holy communion at the morning service.

AMUSEMENTS.

NEW MARKET THEATER.—The Serious Family was presented last evening to rather a slim attendance. The excellence of the performance certainly deserved a crowded house. Mr. Leman's "Aminidab Sleek" is a most excellent performance, and was well taken by the audience. Miss Tallien, Miss Woodthorpe and Miss Wade all did excellently. The entertainment closed with the laughable farce of Irish Mesmerism. This evening Through by Daylight, for the benefit of James M. Ward.

THE NEW SEASON.—This evening's performance closes the present season of the New Market theater. The new season commences about one week hence, when will be presented the first of the Baldwin theater series of plays in "A Celebrated Case." This play will be mounted and the characters dressed exactly as they were in San Francisco, Mr. Maguire having received the wardrobe, wigs, etc., on the steamer *Oregon*. Miss Annie Adams will make her first bow to the Portland public in this great play, as will also the wonderful child actress "Little Maud." Mr. John Maguire says his coming season will surpass the one just being finished, in the variety and excellence of attractions. The opening play surpasses in dramatic interest anything hitherto presented in this city, and unquestionably will draw large audiences.

MR. WARD'S BENEFIT.—To-night Mr. J. M. Ward, the favorite Irish comedian, will be the recipient of a complimentary benefit at New Market Theater. On this occasion will be presented his great sensational drama in three acts, and prologue entitled "Through by Daylight, or New York in 1860." This play will be presented with new scenery and with the full strength of the company. To give due effect to the piece, the City Rifles have kindly volunteered and will appear in full uniform in one scene. In addition Mr. Ward will appear as "Micky Corrigan" in song and jig; Miss Carrie Clark as "Julia," and Mr. Fred. Gere, as "Dutchman." Mrs. H. Parrish has kindly volunteered and will render a song. A large number of seats have already been sold and a crowded house can be predicted.

SOCIAL EVENTS.

A grand masquerade ball will be given at Turn Hall Monday evening, February 17th, under the management of that old and popular organization, the Portland Turn Verein. Prizes will be awarded the most elegant lady and gentleman masker; also the most comical lady and gentleman masker. Every necessary arrangement will be made and a large attendance and an enjoyable time may be confidently anticipated.

Last evening a large throng assembled at Prof. [illegible]'s dancing academy to participate in the grand marquerade ball given under his auspices. It was in every sense a signal success. At 9 [illegible] the grand march was formed, and was [illegible] of about twenty couples *en masque*, [illegible] number was augmented to about 50 couples [illegible] the march was over. As was previously announced, four prizes were to be given to the best sustained ladies and gentlemen's character, and the most comical character of each. A committee consisting of Messrs. Hayes, Strader, Ward and the Misses Ross and Pumpelia were appointed to decide the doubtful question, and resulted in the following persons carrying off the palm: 1st for best ladies' suit, by Mrs. W. Moffett; best sustained lady's character, old lady knitting, Miss [illegible] Young; best gentleman's suit, "Washington," Mr. Chas. Zellar; and best comical gentleman's character, "plantation negro" Mr. Charles [illegible]. The unmasking took place at 11 P. M. and from then till morn a merry time was indulged in. The costumes were numerous and of new and original design. All the city papers were well and ably represented, and received the admiration of all present for the taste and "make-up."

PERSONAL.

Mr. John Dudley, who has long been in the employ of the Portland Water Co., arrived on the steamer *Oregon*. He has been on a visit east for some time.

Mr. D. W. Taylor ex-city surveyor, returned on the steamer. For several months he has been in Arizona following his profession—civil engineering, on the Colorado river.

Mr. Donald Macleay, our highly esteemed fellow townsman, returned to Portland on the steamer Oregon after nearly a year's absence. Mr. Macleay left here last February in the bark *Garibaldi* for Australia. From thence he proceeded by way of India to England and to his old home in bonny Scotland. On his return he came by steamer to New York and thence overland to San Francisco. He reports having experienced a very pleasant time and returns in excellent health and spirits.

NAMES CHANGED.

The following dispatch was received by THE OREGONIAN last evening.

WASHINGTON, Jan. 28.—The bill to change the names of the steamships *Geo W. Elder* and *City of Chester* to *Portland* and *Columbia* respectively has passed the house of representatives and is now pending in the senate.

AUCTION SALE OF HOUSEHOLD FURNITURE.—This morning at 10 o'clock at the residence on Main street, between Sixth and Seventh. [illegible] & Co. are the auctioneers.

DOOMED TO DEATH.

JOHNSON AND BROWN MUST DIE—THE DECISION OF THE CIRCUIT COURT AFFIRMED BY THE SUPREME COURT AT SALEM.

The telegraph brings news from Salem that the little thread to which James Johnson and Archie Brown, the robbers of O'Shea and the murderers of Louis Joseph, have clung has broken and that they must die. The appeal on points of law, which has been under consideration by the supreme court for several days, has resulted in affirmation of the sentence condemning them, and now no power on earth, save that of Governor Thayer, which there is no probability of being exercised, can save them. The following dispatch tells the story.

To Messrs. Caples & Mulkey—SALEM Jan. 28, 1879. Judgment of the court below, in the case of the state vs Johnson and Brown, is affirmed. P. H. D'ARCY.

The execution will take place in the yard of the court house on the 7th of February. The sheriff informs us that only the number of citizens required by law as witnesses, and members of the press will be allowed to witness it.

HELL GATE STILL CLOSED.

The raising of the ice blockade on the Upper Columbia seems to be a good distance in the future yet notwithstanding the genial weather we have recently had. Latest reports from Hell Gate, a few miles above Celilo, indicate a greater quantity of ice at that place than before for many years. Early in the freeze up the ice gorged there and as great masses of floating ice came down from above it continued to lodge so that now it is over 20 feet thick above the ordinary level of the water and probably as much below. This mass extends clear across the river and freezes harder every night. It is now thought that this ice gorge will not give for several weeks, unless warmer weather should prevail along the head waters of the river and raise the stream materially. The Columbia is also solidly blocked by a similar gorge at and below Long island, which lies a few miles this side of Umatilla.

AN EXPENSIVE TERM.

The Cost of Running the Judicial Machinery.

The term of the state circuit court which adjourned last Saturday, after being in session 82 days, cost the tax-payers of Multnomah a round sum. The cost of the term of court aggregates the enormous sum of $10,440.62. This includes the fees of the grand jury, attendance of the district attorney on the grand jury, fees of sheriff, bailiffs and crier, board, medicine and clothing of prisoners, sheriff's fees for serving subpoenas, fees of petit jurors, witness fees before the grand jury and in state cases, fees of clerk, fees of district attorney in state cases, cost of jurors in meals, lodgings, etc., defending prisoners and rewards. The cost of boarding and clothing the prisoners, furnishing medicine etc., is for the term of four months—while they were in jail awaiting the action of the grand jury and trial.

"MOUNT SHASTA AT SUNSET."

At the show window of Sanborn, Vail & Co., on First street, can be seen a large and very handsome oil painting just fresh from the brush of that very clever young artist, Mr. Edward Hill. The subject is "Mount Shasta at Sunset." Mr. Hill, if possible, has surpassed all his preceding efforts with the brush in the execution of this piece of art. He has handled the subject with a delicacy, breadth and we may add a shade of boldness and vigor, quite charming to the eye. The coloring is warm and rich, and nothing has been omitted in the matter of detail. Mr. Hill is engaged in painting a companion picture—a view of Mt. Adams. Mr. Yates, who represents the interest of Messrs. Sanborn Vail & Co., in this city, has just placed an adjustable gas reflector in his show window, which greatly intensifies the light and adds much to the attractiveness of the display. The new painting attracts much public attention.

Every ingredient entering the composition of Dickey's "Creme de Lis" is subjected to the most rigid test of modern Chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—it being well known the public will appreciate and support a truly meritorious article. Several new beautifiers under various names have lately started into existence, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

COAST SURVEYS.

An Interesting Controversy Between the Military and Civil Departments.

The following paragraph is taken from a recent number of the San Francisco *Chronicle*:

For some time past there has been a controversy going on between General Humphreys, Chief of Engineers, United States Army, and Superintendent Patterson, of the United States Survey Department, the point being whether the military engineers should have control of the coast survey as well as of construction. The National Academy of Science proposed to consolidate all the government surveys of the west and place them under the coast survey. On the 13th inst. Secretary McCrary sent to the senate a long communication on the subject, stating that "Since a thorough survey of the west, of any kind, will involve millions of dollars, and since the plan proposed by the National Academy, if adopted, will prevent the supplying of the war department with the maps which are requisite for the economic administration, and for the use of its officers in the field, I would invite special consideration of the Senate to the communication of the Chief of Engineers, with the recommendation that the appropriation for military surveys shall remain as before." The position taken by General Humphreys is that the Academy of Science exceeded its authority in making the recommendation for the consolidation of all the surveys. As to the cost of the plan proposed he says that scores of years would elapse and hundreds of millions of dollars have to be expended before the survey could be completed, while by the plan now carried on by the War Department, which is geodetic as well as topographic, the survey of the whole interior region would be completed in ten or fifteen years at a cost not exceeding $2,000,000. In reply to this, Superintendent Patterson sent a letter to congress insisting that there would be a great saving of money and no overlapping of work if the military engineers were confined to the duties of construction and surveys placed exclusively in the hands of the United States survey department. He explains that in the surveys only 13 engineers are employed, against 150 civilians, and that, in fact, while the engineers get all the credit for all the surveys made, the civil assistants do all the work.

The following named officers will proceed without delay to the Dalles, Oregon, on public business. Major Charles G. Sawtelle, quartermaster, chief quartermaster; Major Thomas C. CAPTURED THE WRONG MAN.

Says the Salem paper: Some days since it was announced that Patrick Brown, an escaped convict, had been captured at Empire City and would in due time be brought to the penitentiary. On Monday last, Mr. Moore came down on the mail train with his prisoner heavily ironed. But when he presented his prisoner at the penitentiary his man did not fill the bill. The facts as we learned them from the victim of the cruel treatment are as follows: It seems that Morris J. O'Neil, some days ago went from Marshfield to Empire City, in Coos county, and got on a big drunk, he was arrested and put in the lockup and kept some three days by Moore of that city, assisted by his son Ed. He was kept pretty freely supplied with whisky all the time; on the third day he was heavily ironed and started at midnight in an open boat across the bay on the way to Salem, coming by way of Gardiner City and Scottsburg, to Drain's station thence to Salem.

Mr. O'Neil feels that he has been very unjustly treated by being arrested, heavily ironed and forcibly taken as a criminal over a long and tedious road to the very door of a felon's cell, and all for no cause save to gratify the greed of an individual in the hope of obtaining a paltry reward.

PERSONAL AND GENERAL.

Col. Ingersoll made $20,000 by lecturing last year.

A Washington journal excites comment by printing the list of marriage licenses under the head of market reports.

The Wisconsin penitentiary, with 330 inmates, cleared $10,000 above the expenses last year, and no appropriation is asked from the state for its maintenance this year.

A few days ago Hendricks, Blaine, Thurman and Conkling were sitting on a lounge together in the senate chamber, and were pointed out as "four presidential candidates in a row."

The celebrated Dr. Snow, of Providence, R. I., is quoted as saying "Where there is abundant sunlight, dryness, good drainage and pure air, and with a plentiful supply of pure water, diphtheria cannot prevail."

In one of the recent articles in the *Contemporary Review* on the alcohol question, Dr. Brunton, an eminent physician, says that the "effect of alcohol upon the nervous system may be described as one of progressive paralysis."

There was quite a scene at Washington the other day when General Miles captured Chief Joseph in the corridors of one of the hotels. Miles took possession of him and showed him round everywhere. Although Joseph wears the Indian costume he can read and write, and registered his own name at the hotel.

The Springfield *Republican*, usually one of the best posted papers in America, says: "Should these mines (the Comstock) cease producing altogether, there are enough others in Nevada to keep up the large aggregate yield of the past in that territory." This is sad for a full fledged state of this glorious republic.

Whitelaw Reid, in introducing his compilation of the cipher telegrams, now published in pamphlet form, says: The men who found and applied the key to them were members of the *Tribune* staff—Mr. Hassler and Colonel Wm. Grosvenor. They were working on the matter for weeks, and the credit of the translation belongs solely to them.

The other day after Conkling had made a bitter speech against the president on the New York nominations no one appeared as the president's defender. Presently, however, Thurman remarked in a jocose way that it was hard for him to sit still and hear a citizen of Ohio attacked, but he was not in the mood to defend him at that moment. It is charged that Hayes is using small methods to accomplish his purposes, and that the use of such methods is defended by nobody in the senate.

Judge Key recently told two North Carolina congressmen who applied to him to appoint a Democrat to a $2,500 postoffice in that state, that he should do nothing of the sort, and that he should hereafter appoint to federal offices in the south only Republicans. The president is reported to have said not long since that Judge Key is the most pronounced Republican in his cabinet. This report seems to confirm it for the president himself has not been above appointing Democrats to office in the south.

A Result Preceding a Cause.

[New York World, Dem.]

Perhaps the telegraph does him injustice, but, if its tricks may be trusted, Senator Voorhees made the truly interesting financial discovery that the financial panic of 1873 was the "appalling penalty" paid by the misguided people of this country for the "bare proclamation of specie resumption,"—the said bare proclamation, if we mistake not, having been made in 1875.

Boston "Culchah"

[From the Cincinnati Commercial.]

The first thing the native of Boston does, after the severance of the umbilical cord, is to procure a copy of Emerson's essays and carry it along the street under his left arm; the next thing is to saddle his nose with a pair of gold-rimmed spectacles, and he winds up by riding a fiery and untamed bicycle through the streets.

GALLOWAY AND WATKINDS.

Hon. Wm. Galloway sends us the following, with special request to publish. We comply because, though disliking these personalities, the matters referred to are of a public nature.

SALEM Jan 27, 1879.

TO THE EDITOR OF THE OREGONIAN:

The following letter was sent me by W. H. Watkinds. The statements are all false. I desire it published to show what the writer is capable of. I have no doubt he can produce any kind of affidavit or letter that he wants. He and his associates who were so successful in plundering the state will not hesitate to manufacture affidavits and letters.

WILLIAM GALLOWAY.

PORTLAND, Or., Jan. 23, 1879.

Hon. Wm. Galloway: DEAR SIR—I have taken all the evidence in answer to the report of the Investigating committee and am about to publish the same. I would like for you to come and look at the evidence before publishing it, as I think you will retract the statements contained in said report concerning myself. If you do not retract I will be compelled to publish some of your private letters now in my possession that you wrote to me for money to buy a lot of half breed votes prior to the election in 1874 said half-breeds being in the vicinity of Dayton, Or. Money was paid to you in 1874 and sent to you in 1878. This I shall dislike to do very much, as you and I have always been friends but I cannot lay under the false charges made by your committee in your statement as to what Mr Osborne testified in regard to the whisky. Gov. Thayer and myself examined the testimony, and find that Osborne made no statement about the whisky in any way whatever. I have affidavits from all the parties named in your report denying every statement you made. Judge Bonham called upon Mr Miller at the prison and found my books in their proper place, and had been there all the time. You claim I spent $17,000 or $18,000 for groceries bought of M Meyer. Mr. C. B Moores has examined Meyer's account carefully and found $3,000 or $4,000 to be for clothing, blankets, hardware, leather, grain, cutlery, nails, etc. and about $1,000 for coal oil, besides the last amount mentioned. You also report the drug bill over double what it really is. There was a credit on the bill of Belt & Hall (drug bill) which you saw fit to put in your report for overcharges on whisky and wines. No such amount as was in that bill was ever got or paid for. The corrections are with the voucher, and the committee could not helped but seeing it. Believing that you did not examine this matter fully, trusting to Thompson to make out a fair statement of facts, when you see the evidence I have taken you will see that the report does me great injustice. Yours truly,

W. H. WATKINDS.

DR. D. HALL McLENNAN,

Vital Magnetic Healer,
Is now permanently located at
153 Fourth St., Corner of Morrison,
PORTLAND, OREGON.

Where those who are sick and need a physician should call on him, as he is performing cures by his natural powers of healing that has baffled all other methods of treatment. Invalids who have hitherto tried everything in vain should take courage, and leave off taking nauseating drugs in which are lurking the arrows of death, and try the living principles of Vital Magnetism, nature's mysterious gift to man. No medicine is used except when upon examination it is actually found to be wanting, and then only Herbal remedies, containing no mercury, calomel, or other poison. By this wonderful power of nature pain is removed in a few minutes, and broken down constitutions built up in a short time.

Physicians having in charge cases that resist the potency of drugs will confer a blessing on such by recommending them to this GREAT HEALER.

To parties not able to appear personally, he will send Magnetic paper and medicine with full directions.

Consultation either in person or by mail is free. Consult him, as it may be the means of restoring you to health and happiness.

The Doctor has permission to refer to the following well known parties who have been treated by him: A. H. Buckman, East Portland; A. S. Miller, of Messrs Miller & Sons, office cor First and Morrison sts., Portland, residence, Salem, Oregon; H. P. Isaacs, Walla Walla; Morrison C. Athey, attorney at law, Oregon City; Mr. Geo. Harger, Portland. Many more might be given but space will not admit. Over 100 endorsements and references can be had upon application at my office.

All sick persons while from home and in Portland under my care are most tenderly watched over, and nothing is left undone which it is believed will tend to make their stay pleasant and their recovery rapid.

Invalids desiring rooms with the attention of competent nurses can be accommodated at my MAGNETIC INSTITUTE, 153 Fourth st., 2d door from Morrison, where I can be consulted daily, from 10 A. M. to 5 P. M. ja23

CALIFORNIA
ROOT TEA.

The Reliable Cure for Chronic Complaints of Liver and Kidneys.

THE ONLY THOROUGH BLOOD CLEANSER. The most pleasing, grateful and satisfactory Strengthening Balsam known, constantly effecting surprising cures of wasting or debilitating diseases and complaints arising from weak or impure blood, feeble circulation or impaired digestion, when all modes of treatment fail. Is of great benefit in threatened or actual consumption and heart disease, owing to its peculiar and great influence on the circulation. For the ills and weaknesses of women it is Nature's most suitable and reliable remedy.

LIVER--KIDNEYS.

Its regulating and strengthening action on these organs is different to and more desirable than that of any article heretofore in use; for indigestion, biliousness, etc., as a tonic, anti-malarial, etc., it is unequaled, while in chronic complaints it gives relief when all other remedies fail, and is frankly acknowledged to be the *only* cure for many chronic complaints of a complicated nature.

CATARRH.

The success of the CALIFORNIA ROOT TEA in curing Catarrh is proverbial, and surprises many who do not understand the nature of this terrible disease, which in most cases can be permanently cured only through the blood by a thorough course of this vegetable remedy, conceded to be the only thorough and permanent blood cleanser known, a course of it completely eradicating for all time the most virulent types of blood and skin diseases, rheumatism, etc. All who use it, leading druggists and physicians gladly attest its great sterling worth.

Sold in its truly vegetable form, in packets at $1; each packet makes a quart of rich balsam, of which the dose is two spoonsful three times daily, making its cost much less than other medicines. Make like tea or put in wine, etc.: pleasant to take when nicely sweetened. It is nature's life-bearing balsam—its success assured in advance in all cases.

Ask for it and take no drugs or disguised mercury. Six pkts, $5 00.

WEDNESDAY MORNING, JAN. 29, 1879.

THE SONG OF THE CAMP.

"Give us a song !" the soldiers cried,
The outer trenches guarding,
When the heated guns of the camps allied
Grew weary of bombarding.

The dark Redan, in silent scoff,
Lay, grim and threatening, under ;
And the tawny mound of the Malakoff
No longer belched its thunder.

There was a pause. A guardsman said
"We storm the forts to-morrow ;
Sing while we may, another day
Will bring enough of sorrow.

They lay along the battery's side,
Below the smoking cannon :
Brave hearts, from Severn and from Clyde,
And from the banks of Shannon.

They sang of love, and not of fame :
Forgot was Britain's glory:
Each heart recalled a different name,
But all sang "Annie Laurie."

Voice after voice caught up the song,
Until its tender passion
Rose like an anthem, rich and strong—
Their battle eve confession.

Dear girl, her name he dared not speak,
But, as the song grew louder,
Something upon the soldier's cheek
Washed off the stains of powder.

Beyond the darkening ocean burned
The bloody sunset's embers,
While the Crimean valleys learned
How the English love remembers.

And once again a fire of hell
Rained on the Russian quarters,
With screams of shot and burst of shell,
And bellowing of the mortars !

And Irish Nora's eyes are dim
For a singer, dumb and gory;
And English Mary mourns for him
Who sang of "Annie Laurie."

Sleep, soldiers; still in honored rest
Your truth and valor wearing;
The bravest are the tenderest—
The loving are the daring.
—*Bayard Taylor.*

A four-year-old girl, left alone with an infant in Urbana, Ohio, said to the mother on her return : "Oh, baby's all broke." The baby was dead, having fallen from the little girls arms and had its neck broken.

FINANCE AND COMMERCE.

Financial.

TUESDAY EVENING, January 28, 1879.

Silver coin—2@2¼ per cent. discount.
SAN FRANCISCO, Jan. 28.—Currency—99.95@par.
Silver—97 60-100@98c.
Trade dollars—95¼@96.
NEW YORK, Jan. 28—Silver bullion, 9½.
5-20s of 1867, 1⅝; 5s of 1881, 6.
LONDON, Jan. 28.—Consols 95⅝, money.
U. S. bonds—5s, 7; 4½s, 9.
Silver 51d.

The essential features of the financial situation are unchanged from that noticed during the past few days. There is no especial demand for loans and rates remain nominally at 10@12 per cent per annum on long term loans, and 1 per cent per month on accommodation loans.

English Crops.

From now until the harvest the wheat market will be more or less affected by the condition of the growing crops of England. The *Mark Lane Express* of the 20th inst. says the aspect of the growing wheat plant in that country at present is scarcely satisfactory, as sudden changes in temperature have tended to check its early development. But another month or six weeks must elapse before any definite opinion can be put forward as to the actual state of the crop. Farmers' deliveries have again been moderate, and dissatisfaction continues in regard to the condition in which most of the English wheat comes to market. Samples offered are damp or sprouted. The imports of foreign wheat into London continue moderate. More attention has been paid to this class of produce, as granaried stocks in the United Kingdom show considerable deficiency on those held at a corresponding time in 1878. The weak point, as regards the future course of prices, is the unusually large surplus available for export in America, which must exercise a depressing effect if the purchasing power of France has been overestimated. Apart from the uncertainty attaching to the operations of France, which, instead of exporting wheat has been a large importer, it remains to be seen whether the reserves of grain in the hands of French farmers will be sufficient to meet the requirements of consumption.

Domestic Produce.

In this department of trade there is some noticeable increase of animation, and the movement of breadstuffs is somewhat more brisk, not especially due, however, to any improvement in the demand, which is still dull and the outlook rather discouraging to an active trade than otherwise. The receipts for the past twenty-four hours embraces rather more of a variety than usual, and are of greater volume than the average of the month so far. Prices are still reported as unchanged, as far as the markets abroad are concerned, and the local traffic is barely sufficient to fix quotations, which are given as on yesterday, with as wide a difference as ever between the views of holders and shippers.

DR. PA[illegible] M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and [illegible] Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

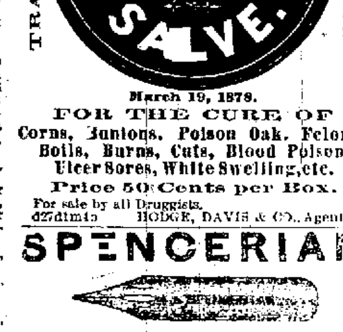

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.
